Countinng The Prime

T.Nakashima

August 18, 2015

Next number is prime.

$$10^{10000} + 28579$$

And next number is prime.

$$10^{100000} + 342909$$

Next,my final aim is the prime that is the form $10^{1000000} + \alpha$.

To find these numbers is reported to update this paper.
