

Sennimalai Kalimuthu Publications

The 5th Euclidean postulate is 2300 years old mathematical impossibility. I have worked on this problem for nearly 35 years and found a number of consistent solutions. My findings have been appeared in international peer reviewed research journals.

Generation of power freely from space, space Bombs, Lion's Tonic and Lemurian Yoga are my ambitious scientific projects.

Interested researchers and people may contact me at +91 8508991577.

My email is math.kalimuthu@gmail.com and arutperunjothi@outlook.com

If you have not enjoyed Euclid at your youth, then you have probably not made for a scientific career – Albert Einstein

Imagination is more important than knowledge. – Albert Einstein

The only source of knowledge is experience – Albert Einstein

Whoever is careless with the truth in small matters cannot be trusted with important matters.–
Albert Einstein

We cannot solve our problems with the same thinking we used when we created them.- Albert Einstein
