

## NOT SO LOOK FOR

Nikitin V. N., Nikitin I. V.

Astronomers have found the amazing galaxy which doesn't contain anti-matter. All galaxies in the Universe have arisen owing to galactic disintegration of the Universal White Hole.

### NOT SO LOOK FOR

It is very difficult to find in the dark room a black cat, especially, if she isn't there.

Confucius

Astronomers have found the amazing galaxy which doesn't contain anti-matter [1]. Stars in the galaxy can make all weight and there, according to scientists, just is no place for dark matter. It won't be coordinated with one of the standard theories of formation of galaxies. But it not so! Our exclusive hypothesis – all galaxies in the Universe have arisen owing to galactic disintegration of the Universal White Hole.
