**ABSTRACT--- The universe is a superfluid dome of GRAVITOETHERTON SUPERFLUID
WITH A DYNAMISM ON EXOTIC LATTICE INTERACTION IN NEIGHBOURING PAIRS
WHERE ALL EVENTS INCLUDING QUANTUM HAPPEN ON ABSOLUTE TIME . ALL
ENTITIES ARE LIKE FISH IN WATER SUBJECTED TO THE DYNAMISM OF FLOW AND
THE ATOMIC AND SUBATOMIC PARTICLES ARE JUST ON A ROCKING BED OF
JITTERING AS WAVICLE GIVING AN WAVE PARTICLE DUALITY .**

The greatest puzzle today is dark matter--dark energy and mechanism of gravity.

**We are living on a planet which is located in a part of our universe of super cluster ,
which is under dark pull/flow from another universe giving drift velocity from existing
universe.**

**This has affected our observations by
telescopes in the form of incorrect red shift and calculations . Our universe is
expanding and accelerating but at reduced rate from our calculations.**

Another

**factor is due to our matter universe inside an antimatter universe on opposite entropy
path and reverse arrow of time creating GRAVITOETHERTON SUPERFLUID at common
boundary by annihilation and injected into both the universe as explained in my balloon
inside balloon theory.**

**The outer universe will be approaching a low entropy when disbalance will give rise to a
BIG BOUNCE creating again mirror universes in recyclic and rebound theory.**

**This BIG BOUNCE is described by Dr.Guth in his exponential inflation. After around
400000 years, we will see CMB glow and galaxies will be forming around escaped
evaporation black holes from previous era as seeds of galaxy formation. That is why
we see black holes in every center of galaxy and much older than the life of our universe.
CMB glow also shows circles of the bounce and BICEP-2 also carries some foot prints.
Therefore this injection of gravitoetheron superfluid is our expanding space swirling,
whirling ,flowing as CURLS AND DIVERGENT VECTORS MORE SPECIFICALLY TENSOR
FLOW IN 4 DIMENSIONS OF SPACE-TIME which Einstein described as SPECIAL AND**

GENERAL THEORY OF RELATIVITY WITH THE ASSUMPTION OF GRAVITY DUE TO CURVED SPACE-TIME..

This is what we refer as quantum foam in quantum mechanics. There is nothing like empty space in our universe but the distribution is non isotropic field density point to point in space-time .

Many exotic particles/fields constitute the SPACE FLUID where fermion graviton with mass and boson gravitons giving strong nuclear force for quarks will be detected soon. Gravity as well as strong nuclear force both are emergent in nature and not fundamental.

Boson gravitons are having by nature strong force to glue quarks if the quarks are available. Otherwise it just participate in expanding our universe. That is why

we see 120 order mismatch in our vacuum energy calculations. On the otherhand , we see that as the galaxy disc is rotating , the centrifugal force throw the massive fermion gravitons away from center of galaxy giving greater concentraion at outer periphery , so that outer stars rotate defying NEWTON . So we have to write the equation as $F=P.G.Mm/R.R$ where P is space graviton factor index.

Now we know that fermion gravitons are flowing like raindrops on earth or we may say flowing like arrows towards center of earth. Earth center is becoming very hot with molten iron for creating a magnetic dynamism

All molecules on earth are subjected by the push of massive gravitons so that apples fall and as Galileo first noted that all molecules heavy or light fall equally . That means we can say that as area of a sphere varies by $1/R.R$, so the force of gravity will also depend on the proximity of gravitons changing by a factor $1/R.R$ as the concentration increases towards center.

It is obvious that for falling equally, we have to say that $M/D.D$ of any molecule is constant at any particular height where D is diameter of any molecule and M is mass.

We have seen air bubbles change diameter as it comes out from bottom of a pond to the surface due to gravity potential .

Some calculation suggest that fermion gravitons must be having 750 proton mass .

I do not think that fermion gravitons have negative mass as it will create mess in quantum calculations of virtual particles at quantum foam in QED and QCD.

But more discussions may clarify the matter further from renewed experiments.

The concept of time in relativity and quantum mechanics is definitely creating all our conceptions in REALITY diluted.

Our universe is ever dynamic without any absolute rest frame and as such all frames are relatively dynamic and Einstein talks of a time which is measured time varying from frame to frame. Example we can say that if our heart beat count one minute then at sea level it may be 70 but on a hill it will be say 72. As such here one minute is diluted due to less oxygen in air giving 70 or 72 beats. Therefore the concept of time is measurement time and not ABSOLUTE TIME. As such ABSOLUTE TIME IS THEORETICAL CONCEPT which NEWTON prescribed. But all quantum processes follow absolute time but the measurement dilutes it in atomic clocks. Therefore there is no possibility of marrying quantum physics with relativistic calculations. We have already seen how relativistic calculation in quantum physics by Dirac, Heisenberg and others created all conceptual difficulties of uncertainties but Einstein said that GOD DOES NOT PLAY DICE. Actually we do not know each and every hidden variables in each point of the universe and as such initial conditions dictating the outcome.... quantum outcome of quantum processes . But propensity of processes follow a pattern if we look at many outcomes in probabilistic theory as we also see in flipping of coins.

Though each quantum outcome is different due to changing dynamic hidden variables but we must say it follow a cause and effect in each outcome . The initial conditions are so dynamically changing in a narrow range but probailistic many outcomes can give a pattern for our understanding. Therefore Einstein is correct in saying God does not play dice. We can not

not say that GOD IS PLAYING DICE.

TIME IS GREAT CONFUSION IN MODERN PHYSICS.

The understanding of reality is our perception in this infinite universe of infinite balloon inside balloon of matter and antimatter on opposite entropy recyclic, re bounce and every epoch give a set of laws and if the laws are benign then intelligent creatures may live on a earth like planet to ponder about the universe. One most interesting phenomena is that the laws of nature has a propensity for construction which give a chance for formation of structures and creatures and life and may be that is our GOD.

.....The time and space should be regarded as ABSOLUTE as prescribed by NEWTON for developing corrections in QUANTUM PHYSICS. The space we see is a part of our universe in a multiverse which has no limit . As

such space should be considered as container and absolute filled with non isotropic

gravitoetheron superfluid swirling, whirling, flowing etc etc and all objects and entities are immersed in it. Everything like fish in water. **TIME IS A LOCAL VARIABLE IN THIS SPACE AS PRESCRIBED BY EINSTEIN WHEN WE MEASURE IT.** Our concept of time is a dilated measured time which is an illusion of absolute time. **PLATO DESCRIBED THIS ILLUSION OF OBSERVATION IN HISALLEGORY OF CAVES STORY.** Einstein only mentioned about this variable time in respect of reference frames and effect of gravity in his time dilation theory. **GPS SYSTEM PROVES EINSTEIN SO WE ARE CERTIFYING EINSTEIN.** The problem is that our universe is everdynamic without any absolute rest frame. We can not measure absolute time except in theoretical calculations and understanding. **But we can not ignore ABSOLUTE TIME in quantum calculations.**

Einstein postulated about speed of light which he considered about the smeared electromagnetic waves and not photon by photon with a specific time of exit tag from the source. This thinking gives the speed of light same by all inertia frames observers which contradicts **GALILEAN TRANSFORM FROM SIMPLE LOGIC.** But can we say that in reality the Galilean Transform is violated.. if we consider light as a flow of photons with different exit time tags for each photon.

Here the trick of applying Lorentz Transform and

surely the observations of smeared EM waves light by instruments also certify the Relativity theory of Einstein. **AS SUCH WAVE PARTICLE DUALITY HAS GIVEN OUR MODERN PHYSICS .. AN ILLUSION OF DUALITY AND UNCERTAINTY WHICH EVEN FEYNMAN FAILED TO UNDERSTAND.** Therefore **WE HAVE TO DISCUSS MODERN PHYSICS IN THE RIGHT PERSPECTIVES BEYOND RELATIVITY THEORY.** There is even no reason that information can not flow faster than speed of light. Speed of light is due to **MAXWELL ELECTROMAGNETIC THEORIES BUT INFORMATION IS CARRIED/PROPAGATED BY ANOTHER KIND OF WAVES WHICH IS CONSCIOUSNESS WAVES OF OBSERVERS AND THAT IS MUCH FASTER THAN THAN SPEED OF LIGHT. THERE IS NOTHING MAGIC IN QUANTUM ENTANGLEMENT OR OBSERVERS EFFECT IN QUANTUM PHYSICS.** **OUR IDEAS MUST DEVELOP FURTHER TO GO BEYOND EINSTEIN AND STANDARD MODEL.** **THE EFFECT OF OBSERVING IN QUANTUM PHYSICS SHOULD BE FULLY EXPLORED BY FURTHER RESEARCH ON CONSCIOUSNESS.** How our consciousness take a physical shape in the form of propagation at a speed much higher than speed of light is being investigated .We must admit that relativity theory can enforce limit on the speed of light but information can propagate much faster than speed of light and Einstein must be wrong in saying that nothing propagates faster than speed of light..

.....Quan

tum mechanics describe the interactions at the subatomic scale of atoms and molecules set against the background of gravitoetherion superfluid which is supplying the virtual particles which is applied in QCD/QED calculations of Feynman..Obscure wave function of Schrodinger and further extensions to matter waves by De Broglie can not be a real quantum world interpretation but an way of coding our observations in subjective beliefs for an abstract quantum description on the wave function .Then do we have to abandon cause effect in all such fantasies in quantum entanglement or probabilistic interpretation of Copenhagen lobby or should we try to explore hidden variables as prescribed by Einstein? The main difficulty here is time taken for Quantum calculations from relativistic approach is creating errors from time dilation and the dynamical system of space-time is changing point to point in space creating the birth of quantum effects in chaotic determinism of highly sensitive in hidden conditions of variables giving output of an illusion of disobeying cause and effects. We deal with the probabilities as described by Max Born for an interpretation always undergoing a feed back loop patterns for a stastical outcome of all such disorganized cause and effects for a pattern which is verified by quantum experiments . The probabilistic wave which is nothing but a deterministic chaos due to a very inherrent law of nature which we may call propensity for reconstruction even under second law of thermodynamics. That is why we see chaotic determinism even in extreme conditions of emerging life from uncertainty .The out come of natural laws also is due to this propensity of reconstruction in a pocket of the multiverse where Higgs field is just appropriate with a benevolent tuning for evolving natural laws which we normally think that never changing.

.....
 LET US NOW DISCUSS ABOUT MATTER WAVES OF DE BROGLIE WHERE ASSOCIATED WAVE OR MATTER WAVE VELOCITY SAY W . BUT PARTICLE VELOCITY $=V$. THEREFORE $P=MV$ BUT $E=HF$. LET US ASSUMED A SITUATION OF STANDING MATTER WAVE . AS SUCH $P=0$, WAVE LENGTH = INFINITY. BECAUSE VELOCITY = WAVELENGTH X FREQUENCY. BUT VELOCITY IS ALSO = $H/P \times E/H$ THAT MEANS $W = E/P = 1/2. MVV/ MV =$ WHICH IS $1/2 V$. THEREFORE IT IS CLEAR THAT ASSOCIATED WAVE VELOCITY = $1/2$ PARTICLE VELOCITY . THAT MEANS IN SIMPLE ANALYSIS OF ORDINARY WAVE THE MATTER WAVE IS LAGGING THE PARTICLE. VERY STRANGE SITUATION OR IS IT?

.....N
 OW WE ARE TALKING OF A PILOT WAVE BUT WHAT IS THE ORIGIN OF THIS PILOT WAVE. WE HAVE ALREADY DISCUSSED THE DYNAMISM OF EXOTIC GRAVITOETHERION SUPERFLUID WHICH IS TOSSEING THE PARTICLES DUE TO INHERRENT JITTERING ON UNCERTAINTY PRINCIPLES SO THAT THE PARTICLES DANCE AS WAVICLE IN PROPAGATION GIVING THE IMPRESSION OF A WAVE . THIS IS THE ORIGIN OF PILOT WAVE WHICH WE MAY CALL ALSO ROCKING WAVE BY SUPERFLUID. OUR ACT OF OBSERVATION PROJECTS SOME ENERGY AS PHOTONS AT THE EVENT SPOT SO THAT JITTERING STOPS MOMENTARILY FOR OUTCOME AS COLLAPSING WAVE LOOK WHICH IS NOTHING BUT DISCRETE FLOW OF ENERGY CALLED A PARTICLE BUT NOT A CONTINUOUS FLOW OF ENERGY IN A

**FLUCTUATING WAY ..SAY A WAVE .
THE WHOLE DOUBLE SLIT EXPERIMENT IS NOW EXPLAINED ON SIMPLE LOGIC OF
OBSERVER EFFECTS AND WE SHOULD NOT FURTHER COMPLICATE QUANTUM
REALITY .**
